PROJECTS

SpeechGenius, Ruby on Rails, React.js, JavaScript, PostgreSQL

[GitHub](#) [Live](#)

- Single-page app built on Flux architecture, consuming RESTful JSON Rails API
- Users can annotate speeches by highlighting text - accomplished through careful DOM manipulation
- Integrates with Filepicker API for Image and GIF uploads

BernieTickets.com, CoffeeScript, Firebase, Gulp

[GitHub](#) [Live](#) [Media](#)

- Worked with Bernie Sanders campaign to create customizable forms for BernieTickets.com, a site used at Bernie events to collect signups (email, etc...) from event attendees
- Refactored structure of NoSQL Firebase database to make customized forms openly accessible
- Updated form component to render custom fields, and styled admin screens using Sass

Chess, Ruby

[GitHub](#)

- Command line version of Chess written in Ruby - includes an aggressive computer player AI – program uses virtual board to find move that will most threaten opponent's king
- Utilizes multiple levels of class inheritance to keep code DRY – pieces split into slideable and steppable classes

EDUCATION

App Academy, San Francisco, CA

August 2015 - November 2015

Intensive full stack web development program, <5% acceptance rate

Duke University, Durham, NC

August 2010 - May 2014

Bachelor of Science: Economics, Minor: Cultural Anthropology, GPA: 3.64

Coursework Included: Econometrics (Advanced Statistics), Linear Algebra, Intro to Computer Science

SKILLS

Ruby on Rails, JavaScript, Ruby, Python, jQuery, AJAX, React.js, SQL, GIT, HTML5/CSS3, Bootstrap, RSpec, Capybara

WORK EXPERIENCE

Gerson Lehrman Group, Austin, TX, *Senior Research Associate*

July 2014 – April 2015

- Primary research engagement manager for strategy consultancies servicing a portfolio of clients valued at over \$25 million
- Identified and recruited over 150 management level executives from Fortune 500 companies to meet client research needs and provide expert advice
- Chosen for access to LinkedIn Recruiter account based on my recommendations to senior leadership and success with exceeding client expectations

Let's Get Ready (Partnered with Teach for America), Philadelphia, PA, *Site Director*

Summer 2013

- Led group of 20 college coaches in providing SAT tutoring and college application guidance to over 60 students from low-income communities
- Analyzed student achievement using ETO (Efforts to Outcomes) software and Excel – assessed data from diagnostic test score reports to identify and target specific areas for improvement
- Advocated for program expansion; per my suggestions program sites in Philadelphia were expanded regionally to accommodate high student demand
